STREET and AVENUE GUIDE
INCLUDING
TELEPHONE NUMBERS, HOME OWNER SYMBOLS and ZIP CODES
1970

(For Streets Not Listed See Suburban Edition)

In the following list the numbered streets are arranged in numerical order followed by the named streets in ohabetical order, the intersecting streets being shown. The number of each building on the street is given in numer-al order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business ocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the num- r denotes the number of the apartment. In all streets both sides of the street are included in one list. The ofession or business of individuals or firms is given only at their respective place of business; to find occupation others refer to Alphabetical List of Names.

The symbol ◎ following a householder's name indicates that we have received information during the canvass t the house is owned by some member of the family, but as the publisher cannot and does not guarantee the cor-tness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is umed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Zip Code numbers are shown immediately following each street description. If a street runs through more than zone, the new Zip Code number is shown immediately preceding the lowest street number in the new zone.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, merely for the guidance of the publishers, and have no other significance.

This section includes some listings reading "No Return." In each case the Publishers tried diligently, by ious means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were de by an enumerator; next, a double postal card was mailed and the telephone used when possible.
